Professional career

• Zetalab - Mid-weight Visual Designer

apr 2024 - Ongoing

I am responsible for a wide range of projects, including brand identities, website design and development, and digital marketing campaigns. I manage projects from concept to completion, collaborating with in-house and external teams for Italian and international clients.

Among our clients: **Moleskine, TedX Milano, Campari, Jakala, Politecnico di Milano.**

• We Are Muesli - Visual & UI Designer

apr 2019 - mar 2024

I designed and developed various kinds of branded experiences, like video games and escape rooms, both distributed commercially and applied to artistic and educational contexts.

I successfully delivered projects in collaboration with museums, brands, and foundations.

Among our clients: **MaxMara, Pomodoro Foundation, Triennale Milano Teatro.**

• Co-op - Freelance Visual Designer

mar-dec 2022

As design and art direction consultant, I helped Swedish digital brand CO-OP to define their tone of voice and I designed their new logo and visual identity.

• SAE Milano - Academic Tutor

oct 2020 - oct 2021

As academic tutor for the three-years Game Design course at the SAE Institute Milano academy, I held game design and game development classes and guided students through the creation of their final year projects.

• CamerAnebbia - Motion Design Intern

oct 2017 - mar 2018

During the first year of my master degree, I worked as intern video animator at the interactive installations hosted by *Fondazione Feltrinelli* in Milan and *Palazzo Leoni Montanari* in Vicenza.

Education

• Politecnico di Milano - MSc in Communication design

sept 2017 - jun 2020

Master degree in Communication Design at Politecnico di Milano with a final score of 110L/110.

• Politecnico di Milano - BSc in Communication design

oct 2014 - jun 2017

Bachelor degree in Communication Design at Politecnico di Milano with a final score of 110/110.

Skills

- **Digital design tools**

Proficient in visual design, UI design and animation. Advanced knowledge of the main image manipulation and prototyping softwares (Adobe Photoshop, Illustrator, Indesign, After Effects, Premiere, Figma).

Good understanding of markup and web programming languages (HTML, CSS, JS), CMSs and web frameworks (Wordpress, Django, Strapi) and game development engines (Unity, Godot).

Strong experience with tools for project management and collaboration (Office and Google Suite, Notion, Jira, Git).

- **Soft skills**

Very versatile and proactive, I like embarking on new design challenges and learning new skills in the process. I'm a very collaborative person, I constantly look for feedbacks and different points of view on my work, and I'm experienced in using the Agile and SCRUM frameworks.

I like spending time with my colleagues also outside of the office, as I believe that getting to know them on a personal level is really fun and enriching.

Languages

- **English**

Advanced - C1 IELTS Certificate acquired at Cambridge School of English in 2024

- **Italian**

Mother tongue

- **French**

Intermediate - B2 DELF Certificate acquired at Alliance Française

Hobbies and other activities

- **Game development**

In 2022 I founded video game collective Villadelfina, that released the arcade-puzzle game *Gincana* for free on the Itch.io platform and is now working on *À la carte*, a puzzle-narrative experience that will be commercially released on Steam in 2025. I designed the concepts, took care of the art direction and developed both games using Godot Engine. I designed all the characters and visual assets for our games using Figma as an illustration tool.

- **Illustration and creative production**

In my spare time I make digital and analog illustrations and I take part in independent creative productions on various media forms (painting, videomaking, music production, game jams).

- **Sport**

I like to run and do full body activities (functional training). I mostly use my bike for commuting and moving in Milan.
